- Comfortable bedroom
- Stylish full bath
- Light-filled kitchen
- Cigar lounge & wine room

Step Inside >>

CustomCraftDBR.com | 610.584.0665 | PA #5292

Luxurious features don't have to break the bank. Initially envisioning a lavish two-room basement retreat with a wine cellar and cigar lounge, these Trooper clients found a more budget-friendly solution. The design process revealed that installing an elegant and expansive wine fridge (front photo) inside the cigar lounge would be a more cost-effective solution. Now, they have a spacious, luxurious entertainment area that's both impressive and comfortable.

Project Spotlight
Luxury for less
 Living it up in the cigar lounge

Sophisticated Sanctuary

These homeowners came to Custom Craft with a two-part request: to transform their unfinished basement into a functional guest space and a cozy owner's oasis.

The new guest suite's transitionally styled bedroom, bathroom, living area, and kitchenette offer comfort and privacy when extended family members visit for long periods of time. Details like gorgeous, engineered hardwood flooring, beautifully veined countertops, and the glossy, grey/green tile backsplash warm up the kitchen area so much that it's hard to believe it's a basement!

Meanwhile, the lower level also features the perfect place to unwind: a posh cigar lounge with a dramatic wine fridge and seating for four. The lounge also has a powerful, specialized ventilation system that keeps the room fresh and prevents odors from migrating to other areas of the home.

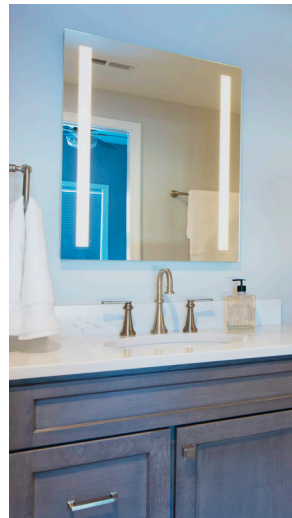

Elevating Style With Tile

Hexagons add a heavenly touch

Although the guest bed and bath are simple in design, charming details add character and sophistication. A stand-out feature in the bathroom is the uniquely tiled shower niche. Layered patterns of hexagons are eye-catching, unexpected, and playfully pop from the white subway tile. The hexagonal theme continues onto the floor tiles to expertly tie the look together.

These details, paired with convenient features like the lighted vanity mirror and dual shower heads, strike an excellent balance between style and function.

A Space for All

This lower level is now a high-functioning space in the home — with each area serving an important purpose. Whether family is staying overnight, friends are over for a dinner party, or someone just needs a space to get away and unwind, the basement will be a central hub for years to come.
