Room to Relax

A NEW DECK & 3-SEASON ROOM IN MAPLE GLEN

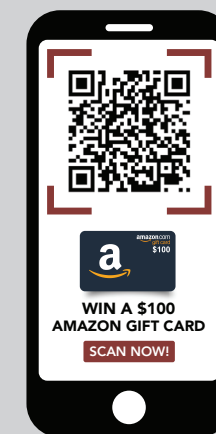

A Tranquil Space to Take it Easy

Our Maple Glen clients longed for a three-season room and deck that would bring a bit of the outdoors in and give them a practical space to relax with their family and dogs. Since they were thrilled with the other rooms Custom Craft remodeled in the home, they called on us to fulfill this new dream.

We worked with the architectural team of Phillips & Donovan to craft a three-season room accessible off the home office. They chose simple, clean lines, white wainscoting, and windows all around to give the feeling of being immersed in nature. A custom gable window lets in even more natural light and coordinates with a modern ceiling fan, which keeps the room cool — even without AC.

We installed durable and low-maintenance Trex composite decking for both the room and the deck, using a tight tongue-and-groove technique that keeps bugs and weeds from sneaking through. The new indoor/outdoor space is their favorite place to enjoy a morning cup of coffee or evening meal, or kick back with a Phillies game on the large TV.
